Product related information

Product:	NUK for Nature Baby Bottle (150 ml and 260 ml)
Type of product:	Baby care products
Raw material:	Polypropylene (linked to 100% natural material (mass balanced))
Raw material category:	Bio (for bottle body and protective caps), Bio-circular (for all other plastic parts)
Country of origin:	Germany
Quantity of sustainable material:	0.05209 kg (150 ml bottle), 0.06009 kg (260 ml bottle)
Claim:	The sustainable plastic used in NUK for Nature products can be linked to 100% to natural raw materials via the ISCC PLUS certified mass balance approach. Thereby, the entire supply chain is "ISCC-compliant".

*(for silicones see REDcert® certificate)
